

Louisiana's Title V program is administered by the State Sections of Maternal and Child Health and Children's Special Health Services. These programs are housed within the Office of Public Health's Center for Preventive Health. The Office of Public Health is one of the five major agencies within the Louisiana Department of Health and Hospitals. The MCH program serves a large portion of the State's large medically indigent MCH population, providing personal health services and local public health functions at parish health units distributed throughout the State. In addition to direct service provision, MCH is involved in enabling, population-based, and infrastructure building services

MATERNAL & CHILD HEALTH (MCH) MEASURES

Title V - MCH National Performance Measures	State 2004 Results	State 2009 Goal
The percent of newborns who are screened and confirmed with condition(s) mandated by their State-sponsored newborn screening programs (e.g. phenylketonuria and hemoglobinopathies) who receive appropriate follow up as defined by their State.	94.2%	97%
The percent of children with special health care needs age 0 to 18 who receive coordinated, ongoing, comprehensive care within a medical home. (CSHCN Survey)	48.8%	55%
Percent of children with special health care needs age 0 to 18 whose families report the community-based service systems are organized so they can use them easily. (CSHCN Survey)	68.8%	75%
Percent of 19 to 35 month olds who have received full schedule of age appropriate immunizations against Measles, Mumps, Rubella, Polio, Diphtheria, Tetanus, Pertussis, Haemophilus Influenza, and Hepatitis B.	72.6%	90%
The rate of birth (per 1,000) for teenagers aged 15 through 17 years.	29.3	27
The rate of deaths to children aged 14 years and younger caused by motor vehicle crashes per 100,000 children.	4.6	6.5
Percentage of mothers who breastfeed their infants at hospital discharge.	43.8%	55.1%
Percentage of newborns who have been screened for hearing before hospital discharge.	95.3%	100%
The percent of very low birth weight infants among all live births.	2.2%	2.2%
Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester.	84.1%	89%
Title V - MCH National Outcome Measures	State 2004 Results	State 2009 Goal
The infant mortality rate per 1,000 live births.	9.3	8.4
The ratio of the black infant mortality rate to the white infant mortality rate.	2.2	1.8
The neonatal mortality rate per 1,000 live births.	5.7	5.6
The postneonatal mortality rate per 1,000 live births.	3.6	2.6
The perinatal mortality rate per 1,000 live births plus fetal deaths.	7.5	11
The child death rate per 100,000 children aged 1 through 14.	26.6	27.5
Title V - Selected MCH State Performance Measures	State 2004 Results	State 2009 Goal
Percent of all children and adolescents enrolled in public schools in Louisiana that have access to school-based health center services.	7.0%	7.7%
Percent of licensed day care centers with a health consultant contact.	31.0%	43%
Rate of infant deaths due to Sudden Infant Death Syndrome.	1.1	1

State Population:
4,493,665
Live Births: 65,298

TITLE V FEDERAL - STATE BLOCK GRANT EXPENDITURES

By Number of Individuals Served and Population Group			
Populations Served	Number of Individuals Served	Expenditures FY 2004	
Pregnant Women	47,039	\$7,200,005	16.4%
